The detailed topics, presentation, speaker, or partnership options will be published by January 2026.

PRESENTATION & SPEAKING OPPORTUNITIES

Subject matter experts, exhibitors, and partners are invited to share their expertise, insights, experience, lessons learned, needs, technologies, and solutions for defence, security, and rescue services.

There are several speaking or presentation opportunities available within the Future Forces Exhibition & Forum, divided into the following categories:

EXPERT PANELS

Since each expert panel may have a different form and structure, there are varying presentation opportunities and options: a keynote speech, single presentation, panel discussion participation, or a poster presentation.

Should you be interested in an active participation in the expert panels, please feel free to **send us your enquiry** in the following structure to info@future-forces.org:

- Name of the expert panel
- Presenter's full name
- Presenter's position
- Organisation
- Topic
- Presentation abstract (up to 300 words)

Suggest a New Topic

If your topic does not align with the main expert panels listed above, you are welcome to suggest a new expert panel or discussion topic. Suggested topics should focus on trends, current or future needs, capability gaps, technologies, and solutions.

FREE EXHIBITORS' STAGE

Exhibitors and partners are welcome to launch new products or solutions, deliver presentations of their capabilities, or hold focused seminars **free of charge**. Each slot is 25 minutes. The Exhibitors' Stage lineup will be published within the official FF26 program.

LIVE DEMO AREAS

Dedicated indoor and outdoor space for dynamic demonstrations by exhibitors, partners, and armed, security, and rescue forces. This includes **ground and flight demos, tactical training, and a live firing range**.

Prague Letňany Airport (LKLT) landing area is located right next to the venue (next to Parking 3), 24th Air Base Prague Kbely (LKKB) is located only 2 km (5 min) from the venue.

LIVE FIRING RANGE

NEW! For the first time in the Czech Republic, a **mobile container live firing range** will be available during Future Forces 2026 for **live testing of firearms, ammunition, ballistics, optics, or sensors**.

- The range will feature two firing positions with a length of 10 meters.
- The caliber limit is 12.7 mm.

Exhibitors and partners can book their live demo slots. For more information, please contact us at info@future-forces.org.
